

Boron X-Tra

Before

After

A Bio-stimulant Fertiliser

An Enhanced BORON Nutrient Solution

Typical Analysis

	% W/V	g/L
Boron	5.5	55
Chlorine	0.2	2

Derived from Boric Acid

- ⇒ Readily absorbed and utilised by the plant.
- ⇒ Ideal for foliar or soil application
- ⇒ Low use rates
- ⇒ Highly compatible
- ⇒ Economical

Boron is essential for healthy plant growth and crop production. Applied in small amounts, **Boron** is used by the plant for:

- ⇒ Cell division
- ⇒ Flowering and pollen production
- ⇒ Building sugar levels
- ⇒ Improving the fixation of Nitrogen
- ⇒ Building healthy cell walls

Boron Xtra is a biological stimulator solution blended with Boric acid and specific organic complexors to provide a lower pH **Boron** source with superior uptake. This means that **Boron Xtra** is effective at very low rates.

1.3lt/ha **Boron Xtra** = 1kg element Boron
300ml/ha **Boron Xtra** = 1.1kg/ha of 20% dry soluble Boron
300ml/ha **Boron Xtra** = 2kg/ha of a 10% Liquid Boron

Boron XTRA is highly compatible with most pesticides and fertilizers. Its 'low use rates' allow growers to use fewer litres, making applications faster and more economical.

ALWAYS CHECK FOR COMPATABILITY FIRST. For further advice contact GROWTH Agriculture on FREECALL 1800 440438.

APPLICATION	RATE Lt/Ha	COMMENTS AND INFORMATION
FIELD CROPS Cotton, peanuts	0.3 to 0.9	Apply as a foliar spray to supplement nutritional requirements of the crop. Alternatively apply to the soil at planting.
TREE and VINE CROPS Tree Crops Vine Crops	0.3 to 1.5 0.3 to 1.0	

GENERAL INSTRUCTIONS:

- ✿ **Growth Boron X-Tra** is designed as a foliar spray for cotton, vegetables, vines, trees and other crops, which require supplemental boron. It may also be used as a soil applied product.
- ✿ **Growth Boron X-Tra** has a lower pH level compared to other **Boron** solutions, which improves it's effectiveness as a foliar application.
- ✿ **Growth Boron X-Tra** is a highly effective formulation of **Boron** and requires much lower use rate than other **Boron** formulations. 300 mL of **Growth Boron X-Tra** has been shown to be equivalent to 2.2 kg of a 20% dry soluble boron.
- ✿ **Growth Boron X-Tra** contains **Boron** in amounts that could be excessive for some crops. For further advice contact **GROWTH Agriculture** on FREECALL 1800 440438.
- ✿ Compatibility: **Growth Boron X-Tra** mixes well with most spray chemicals, but ALWAYS TEST FOR COMPATIBILITY FIRST.

APPLICATION:

When applying by ground sprayers, use with a minimum of 100 L of water per ha. When used in an aerial application use at least 30 L of water per ha.

STORAGE AND DISPOSAL:

- ✿ Store in the closed original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT store material that has been mixed with water – it will not keep.
- ✿ Triple or preferable pressure rinse containers before disposal. Add rinsings to the spray tank. DO NOT dispose of undiluted chemicals on site. If recycling replace cap and return containers to recycler or designated collection point.
- ✿ If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetable and tree roots. Empty containers should not be burnt.

SAFETY DIRECTIONS:

Wash hands after use.

FIRST AID:

If poisoning occurs contact a Doctor or Poisons Information Centre (131126).

CONDITIONS OF SALE:

GROWTH Agriculture shall not be liable for any loss, injury or damage whether Consequential or otherwise, whatsoever or howsoever arising, whether through negligence or otherwise in connection with the sale, supply, use or application of this product.
