DIRECTIONS FOR USE:

SITUATION	APPLICATION RATE	CRITICAL COMMENTS
General Herbicide Sprays: High Volume Power Spray Low Volume Boom Spray Misting Machines Knapsack	10 mL/100 L 40 mL/100 L 5 mL/5 L 2 mL/15 L	GROWTH DEPLOY 1000 should be added only where directed on individual label, as use with selective herbicides outside label directions may cause crop damage.
Soil Residual Herbicides	100 to 400 mL/100 L	Rates will vary depending on products used. Consult product labels for individual recommendations.
Contact Herbicides: High Volume Power Spray, Low Volume Spray	120 mL/100 L	Contact herbicides require high rates of GROWTH DEPLOY 1000 to ensure thorough coverage of weeds. This is particularly important for killing grasses and tall, dense vegetation.
Fire-Fighting: Water Tanker Knapsack	5 mL/100 L 1 mL/15 L	Increases the wetting power of water.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS:

GROWTH DEPLOY 1000 is a spreader which gives quick wetting, and better adsorption and spray coverage. It can be used with most herbicides as recommended on the individual product labels. This product increases retention of spray by reducing surface tension of the spray droplets, which results in more uniform coverage of the leaf surface. For foliar active herbicides the product should be applied to the point where leaves and stems are wet. Avoid causing excessive run-off. When treating hairy or waxy leaved plants, the addition of GROWTH DEPLOY 1000 at higher rates will increase herbicide activity.

Mixing: Half fill the spray tank with water and engage the agitation system. Add the recommended quantity of agricultural chemical, followed by the required amount of GROWTH DEPLOY 1000 and top up the tank with water while continuing to agitate the mixture.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT: Toxic to Fish. DO NOT contaminate streams, rivers or waterways with chemical or used containers.

STORAGE AND DISPOSAL: KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS: Avoid all skin and eye contact. Wear rubber/PVC gloves and overalls.

FIRST AID: If poisoning occurs get to a doctor or Poisons Information Centre (Phone 131126). If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

MATERIAL SAFETY DATA SHEET: Additional Information is listed in the Material Safety Data Sheet.

CONDITIONS OF SALE: GROWTH AGRICULTURE PTY LTD shall not be liable for any loss, injury or damage whether consequential or otherwise, whatsoever or howsoever arising, whether through negligence or otherwise in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on GROWTH AGRICULTURE'S skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of GROWTH AGRICULTURE PTY LTD has any authority to alter these conditions.
