Agriculture

CROPS	RATE L/ha	CRITICAL COMMENTS
Broadacre Crops, Cotton, Peanuts	1 to 4	Apply as a foliar spray to supplement nutritional requirements of the crop. Alternatively apply to the soil at planting.
Tree and Vine Crops	1 to 4	
Vegetables	1 to 4	
Seed Dressing		
Winter Cereals & Other Grains	5 - 6 L per tonne of seed	Apply directly to seed without dilution prior to planting
Canola	20 L per tonne of seed	

GENERAL INSTRUCTIONS:

Zinc X-Tra is designed as a foliar spray for cotton, vegetables, trees and other crops, which require supplemental Zinc. It may also be used as a soil applied product or seed dressing.

This product has a lower pH level compared to other Zinc solutions, which improves its effectiveness as a foliar application. Zinc X-Tra contains Zinc in amounts which could be excessive for some crops. For further advice contact Growth Agriculture Pty Ltd on FREECALL 1800 440 438.

COMPATIBILITY:

Always check physical compatibility before mixing with other products.

APPLICATION:

For foliar application, when applying by ground sprayers, use with a minimum of 50 L of water per ha. When used in aerial application use at least 20 L of water per ha.

As a seed dressing apply directly to the seed without dilution prior to planting.

Consult Growth Agriculture should more information be required.

STORAGE AND DISPOSAL:

Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT store material that has been mixed with water – it will not keep. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500 mm in a

disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS:

Avoid contact with skin and eyes.

FIRST AID:

For advice, contact a Poisons Information Centre (Phone Australia 13 11 26). If swallowed, DO NOT induce vomiting. If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

SAFETY DATA SHEET:

Additional Information is listed in the Safety Data Sheet.

CONDITIONS OF SALE:

Growth Agriculture Pty Ltd shall not be liable for any loss, injury or damage whether consequential or otherwise, whatsoever or howsoever arising, whether through negligence or otherwise in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Growth Agriculture's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of Growth Agriculture Pty Ltd has any authority to alter these conditions.
